

MISURATORE SPESSORI DECIMALE ST - 130

- * Measuring range: 1.0~300mm (Steel)
- * Accuracy: $\pm(1\%H+0.1)$ mm
- * Resolution: 0.01mm
- * Sound velocity range: 1000~9999m/s
- * Working frequency: 5MHz
- * Minimum limit for tube measuring:
Φ10mm probe: Φ20*3mm (Steel)
Φ6mm probe: Φ12*2mm (Steel)
- * Auto calibration to assure the accuracy
- * Auto linear compensation: this advanced software program enhances the precision by correcting the non-linear accuracy of transducer.
- * Data store/ Data recall/ Data delete function
- * Sound velocity measurement
- * Metric/Imperial unit selection
- * Low battery indication
- * Auto power off
- * LCD backlight display
- * Warranty: 12months
- * Packing Method: Gift box + PP box
- * Power supply: 3pcs*1.5V AAA alkaline batteries
- * Weight: 210g
- * Dimension: 70*145*28mm
